

Rich Lordan
Senior Technical Executive
Transmission
Power Delivery and Utilization

Richard Lordan is currently Senior Technical Executive, in the Power Delivery & Utilization Sector of the Electric Power Research Institute (EPRI). His current research activities include:

- High Impact, Low Frequency Threats
- Resiliency
- Physical Security
- Electromagnetic Pulse and Intentional Electromagnetic Interference

At EPRI, Lordan has managed numerous programs including Overhead and Underground Transmission, Substations, and Grid Operations and Planning.

Lordan worked at Florida Power & Light Company (FPL) before joining EPRI. While at FPL, he worked in various capacities including Service Planning, and Transmission and Distribution Engineering.

Lordan holds a bachelor's degree in mechanical engineering from Pennsylvania State University and a master's degree in electrical engineering from Florida Atlantic University.
